ANONYMOUS CALL REJECTION

Call Rejection will prevent **all** calls getting through that have their number withheld, these may be bona fide calls which the customer may wish to receive but is prevented from doing so because the caller cannot release their number. N.B. This may also include calls from the Emergency Services.

DIRECT CONNECT

In addition to the rental for Direct Connect, standard exchange line rental and forwarded call charges at the appropriate dialled rates also apply.

With Direct Connect the following applies:

- The line is Outgoing Calls Barred (OCB) to all other numbers (inc.999).
- Other Wholesale Calling and Network Features are not permitted on the line.
- The telephone number must be ex-directory.

PRESENTATION NUMBER

Presentation Number (PN) is available to Business customers only. It is charged on a per Billing Number basis. The Service Provider must comply with the requirements embodied in the Ofcom Code of Practice concerning the ownership and ability of the requested PN to receive calls.

CALLER REDIRECT

This service is available following cessation or renumbering when the number is not used as part of a new installation and provides an announcement informing callers of your new telephone number. It does not redirect the call.

REMOTE CALL FORWARDING

The rental and connection charges for Remote Call Forwarding are in addition to all forwarded call charges at the appropriate dialled rates and the exchange line rental charges detailed elsewhere in this price list.

The renter of the service is charged the appropriate dialled call rates for the diverted leg of the call. The caller pays for the call to the number dialled.

NOTES:

- The Service Provider will be charged on a monthly basis. Quarterly rental charges will be pro-rated.
- The charge for number Selection is charged per request per line. Where a call is used to discuss number selection, Service Providers must make a real time decision on the number during that call as any delay may mean the number is allocated to other customers. Any subsequent calls will be considered as a separate request and a charge will be raised.
- This product is charged on a per line / channel basis. For multi-line installations Auxiliary lines are considered separate lines.

(d) The rental and connection charges for remote Call Forwarding are in addition to all forwarded call charges at the appropriate dialled rates and the exchange line rental charges detailed in Part , 'Wholesale Access'. The renter of the service pays the appropriate dialled call rates for the diverted leg of the call. The caller pays for the call to the number dialled.

(e) Only available on lines ordered via the EMP (WLR3) interface.

(f) As of 12 February 2007 Temporary Call Divert can be ordered on lines provided on the SPG (WLR2) interface for application in non-fault situations. Maximum duration of this facility on a line is three months. This service is not available via the EMP (WLR3) interface.
