Cancellation Charges: before delivery (Note 4)

Feature	Operative date	Until	On completion of following activities	Cancellation Charge
Cancellation Charge			Order Acceptance by CP and Openreach	As per Connection

In addition all order validation activity incurred until the point the order is cancelled will be charged.

1. Product is only available where fibres have been installed by Openreach and fully funded as part of Broadband Development UK (BDUK) Phase 1 contracts.

Locations are available on request.

2. Rental is payable in advance either quarterly or annually.

3. Additional charges may be raised where non-standard work is required and for Repair activities on land. For work done by Openreach engineers not included in standard prices see 'Time Related Charges for Ethernet and non-Openreach Network' in the Service Products section of the price list for details.

<http://www.openreach.co.uk/orpg/home/products/pricing/loadPricing.do>

4. The minimum term is 12 months from date of installation. If the circuit is cancelled during this time the remaining rental charges for the first 12 months will be raised in full.

5. Prices are not fixed for the duration of the minimum term period, but changes will be subject to notification.

6. Charges for any construction required to be undertaken by Openreach to allow the CP to connect to the Openreach network will be charged using the Excess Construction Charges in the Service Products section of the Openreach Price list.
